

EXCEED EXPECTATIONS IN ROOT CANAL THERAPY:

TECHNOLOGY INTEGRATION FOR A PREDICTABLE, PROFITABLE, AND PATIENT CENTRIC PRACTICE

Sound Science[®]
ACADEMY

INTENDED AUDIENCE

Endodontists interested in learning about new technology including the GentleWave[®] System.

COURSE OVERVIEW

As new technology emerges in dentistry, questions arise for the modern endodontist: what kind of impact would this technology have on my patients, my team, and my practice? This course will answer these questions and help you gain an understanding of the latest peer-proven technologies in the endodontic space today. Hear from a clinician who has leveraged technology to impact the patient experience, create a more predictable root canal procedure, and maximize profitability for his practice – without adding unnecessary complexity to his routine.

COURSE OBJECTIVES

- Examine the GentleWave System Mechanism Of Action and the science behind its safety
- Discuss opportunities for creating a more predictable and simplified workflow through use of technological advances such as the GentleWave System
- Review the return on investment and related practice management techniques with the GentleWave System, to include scheduling, billing, and marketing
- Apply learnings in a hands-on clinical lab with instructor oversight

COURSE INSTRUCTOR

Brian Habas
DMD, MS

SATURDAY, MAY 11, 2024

SEATTLE MARRIOTT BELLEVUE

200 110th Avenue Northeast
Bellevue, WA 98004

MAY 11, 2024 | LIVE

Session: 8:00AM – 2:30PM PST

Hands-On Session: 12:30PM – 2:30PM PST

Course Fee: \$595

CE Credits Offered: 6 CEs

Maximum Attendees: 30

COURSE INSTRUCTOR

Brian Habas
DMD, MS

Dr. Brian Habas, D.M.D., M.S. grew up in Plainfield, IL. He graduated Cum Laude from Southern Illinois University at Edwardsville's School of Dental Medicine in 2001. He practiced general dentistry for six years, both in the Chicago suburbs and near Atlanta, GA. In 2009, Dr. Habas completed a residency program in Endodontics, receiving his M.S. and certificate in Endodontics from St. Louis University. Since then, Dr. Habas has completed multiple continuing education courses on the use of Cone Beam Computed Tomography (CBCT) to enhance the level of endodontic treatment he can offer his patients.
