

EXCEED EXPECTATIONS IN ROOT CANAL THERAPY: TECHNOLOGY INTEGRATION FOR A PREDICTABLE, PROFITABLE, AND PATIENT-CENTRIC PRACTICE

INTENDED AUDIENCE

Endodontists interested in learning about new technology including the GentleWave® System.

COURSE OVERVIEW

As new technology emerges in dentistry, questions arise for the modern endodontist: what kind of impact would this technology have on my patients, my team, and my practice? This course will answer these questions and help you gain an understanding of the latest peer-proven technologies in the endodontic space today. Hear from clinicians who have leveraged technology to impact the patient experience, create a more predictable root canal procedure, and maximize profitability for their practice – without adding unnecessary complexity to their routine.

COURSE OBJECTIVES

- › Examine the GentleWave System Mechanism of Action and the science behind its safety
- › Discuss opportunities for creating a more predictable and simplified workflow through use of technological advances such as the GentleWave System
- › Review the return on investment and related practice management techniques with the GentleWave System, to include scheduling, billing, and marketing
- › Apply learnings in a hands-on clinical lab with instructor oversight

COURSE INSTRUCTORS

Kirk A. Coury
DDS, MS

S. Ryan Facer
DDS

SATURDAY, FEBRUARY 22, 2025 | LIVE

KIMPTON HOTEL MONACO

15 W 200 S
Salt Lake City, UT 84101

COURSE INSTRUCTORS

Kirk A. Coury
DDS, MS

Dr. Kirk Coury attended Texas Tech University and received his DDS degree from Baylor College of Dentistry in 1987. A year after, he entered the endodontic residency program at the University of Texas Health Science Center – Houston where he received his Certificate in Endodontics and a master's degree in Dentistry. He opened his practice in Amarillo, Texas in December 1990 as the first endodontist in the Panhandle area. Dr. Coury is a Diplomate of the American Board of Endodontics, and Fellow of the International and American College of Dentists. He has authored several papers, and lectures frequently.

S. Ryan Facer
DDS

Dr. Ryan Facer earned his dental degree and specialty training from the University of Iowa, where he graduated with high distinction. He also received a bachelor's degree in medical biology from the University of Utah and has been published in peer-reviewed journals such as the Journal of Endodontics and the Journal of Dental Research. His research interests range from sealer coverage, bacteriophage therapy, roentgen therapy and adult stem cells, with an emphasis on bone biology and dental trauma. Dr. Facer currently practices at Greater Endodontics in Salt Lake City, Utah.
